

2. DEVELOPMENT PLAN

2.1. Permitted Uses in the PUD

Permitted uses within the boundaries of the PUD are as follows:

2.1.1. Residential Uses

2.1.1.1. Single household detached, village, and zero lot line

The single household use is a setting for single household residential development of a medium density detached, village or zero lot line character, with support facilities and services that are compatible with single household residences. Density may range from four to eight dwelling units per acre, depending on the context of the development.

2.1.1.2. Two to four household

The two to four household use is a setting for two household, three household and four household residential structures of a medium density, suburban and village character, along with support facilities and services that are compatible with residential areas. Density may range from eight to 14 dwelling units per acre, depending on the context of the development.

2.1.1.3. Single Household attached (Townhouse and condominium)

The single household attached use is a setting for townhouse and condominium attached residential structures of a medium density character, along with support facilities and services that are compatible with a range of residential areas. Density may range from six to 20 dwelling units per acre, depending on the context of the development.

2.1.1.4. Multiple unit household

The multiple unit household use is a setting for development of multi-unit residential structures and developments, such as apartment and condominium complexes, garden and courtyard multifamily residential buildings, and residential loft buildings. Density may range from 14 to 25 dwelling units per acre, depending on the context of the development.

2.1.2. Commercial and retail use

2.1.2.1. Commercial and retail use

The commercial and retail use is a setting for low to mid intensity retail uses, offices and personal services intended to serve residents of a neighborhood and surrounding community. Additionally, commercial and retail use is a setting for development of a wide range of retail uses, offices and personal and business services. Commercial and retail use should be clustered at locations accessible to the community. Site and building design standards are intended to encourage high quality development, promote internal and external pedestrian connectivity, and prevent potential harm to adjacent residential uses.

2.1.3. Industrial Uses

2.1.3.1. Light industry

Light industry use is composed of land and structures used primarily to provide space for commercial enterprises involved in research and development, light manufacturing, packaging, warehousing, distribution, and skilled mechanical trades. Light industry uses should be grouped together in large, contiguous areas, close to transportation facilities, well separated or buffered from low density residential areas.

2.1.4. Recreational Uses

2.1.4.1. Recreation use

The recreation use accommodates recreation and resort uses that take advantage of the land, encourages large outdoor recreation uses that could not easily be provided in the already urbanized portions of the area, and permits commercial and service uses connected with recreational activities. Recreation use should be generally separated or buffered from low density residential areas.

2.2. Use Descriptions and Standards

Refer to **Sections 10.306 – 10.311 of the UDC** for definitions of uses and standards for residential uses, commercial and retail uses, industrial uses, institutional and civic uses, temporary uses and accessory uses permitted in the PUD.

2.2.1. General performance standards

The general performance standards for property within the boundary of this PUD shall comply with **Section 10.312 of the UDC**.

2.2.2. PUD uses

Permitted uses set forth in this section 2.2.2 in the PUD must conform to **Exhibit A, PUD Development Plan**.

2.2.2.1. Permitted Use table abbreviations

	Context
X	Permitted use permitted by right, subject to conditions and performance standards for the use. All permitted uses are subject to conditions set forth in Section 10.202 of the UDC .
-	Not a permitted use

Construction field office	X	X	X	X
Garage sale	X	X	X	X
Model home / lot sales	X	X	X	X
Portable storage container	X	X	X	X
Temporary building	-	-	X	X

2.2.2.7. Accessory uses

Accessory uses and structures are intended to allow property owners the full use of their property while maintaining the character of the surrounding area. Accessory uses and structures must be built and used only for purposes that are secondary and normal to the principal use of the property and must be placed on the same lot with the principal use.

Accessory uses	DevAreaA	DevAreaB	DevAreaC	DevAreaD
Antenna, radio hobbyist \leq max ht in district	X	X	X	X
Antenna, radio hobbyist \geq max ht in district	-	-	-	-
Antenna, non-residential: \leq 15 ft. above roofline	X	X	X	X
Antenna, non-residential use: other	X	X	X	X
Wireless facility: attached	X	X	X	X
Wireless facility: concealed	X	X	X	X
Wireless facility: freestanding	-	-	-	-
Donation drop-off box	X	X	X	X
Drive through facility	X	X	X	X
Home occupation	X	X	X	X
Residential accessory structure	X	X	X	X
Satellite dish	X	X	X	X
Swimming pool	X	X	X	X
Vending machine (outdoor)	X	X	X	X
Free-standing cisterns	X	X	X	X
Wind energy system	X	X	X	X

2.2.3. Applicability and enforcement

2.2.3.1. New and undefined uses

As commerce and technology evolve, new types of land uses will develop and forms of land use not anticipated may seek locations in the city. To provide for contingencies, Development Services staff will consider the appropriateness of an undefined use in this PUD. Approval criteria include:

- Impacts of the use, including externalities and use of public services and infrastructure
- The use is similar in nature and impact to a use listed and defined as a permitted use in the PUD
- The use is not similar in nature and impact to a use defined and listed as a prohibited use in the PUD, or prohibited in the PUD but permitted in a different district
- The use conforms to the intent of this PUD
- The interpretation does not lower the protection given to the public by this PUD
- The use does not have the potential to create a dynamic that would harm the vitality or future development potential of surrounding commercial, industrial and residential areas
- Performance standards and conditions for uses similar in nature and impact are also considered

If Development Services staff finds the proposed land use is not appropriate for the district, the applicant may appeal the decision to the City Council within 30 days of determination.

2.3. Use Specific Design Standards

2.3.1. Large item sales and rental (Class 1, 2, and 3)

2.3.1.1. Architecture

Separate structures (service building, car wash, used car sales building, etc.) on the site must share architectural detail and design elements to provide a cohesive project site.

Vehicle service areas and bays must be screened or sited so they are not visible from the street.

Garage doors cannot face the street.

Garage doors must be integrated into the overall design theme of the site with color, texture, and windows.

2.3.1.2. Parking, circulation, and stacking

Vehicle display parking and inventory areas are not exempt from site planning standards.

Large expanses of concrete or asphalt must be avoided. Unrelieved pavement in vehicle display areas and other areas often visited by customers must be limited by using landscaping, contrasting colors and banding or pathways of alternate paver material.

Vehicle/pedestrian conflict points must be clearly defined with textured and colored pavement or brick pavers.

Service areas must provide adequate stacking space that does not impede vehicle circulation through the site or result in vehicles stacking into the street.

2.3.1.3. Landscaping

Vehicle display parking and inventory areas are not exempt from landscaping standards.

Inventory cannot be stored, parked or displayed in landscape areas.

2.3.2. Vertical mixed use

2.3.2.1. Definition

A single building containing more than one type of land use; or a single development of more than one building and use, where the different types of land uses are in close proximity, planned as a unified complementary, cohesive whole. Vertical mixed use buildings are building where two or more different uses occupy the same building usually on different floors, for instance, retail on the ground floor and office and/or residential uses on the second and/or third floors.

2.3.2.2. Applicability

Vertical mixed use buildings and development containing residential uses permitted in table 2.2.2.2 and commercial and retail uses permitted in table 2.2.2.3 are permitted in designated areas conforming to **Exhibit A, PUD Development Plan.**

Exhibit A- PUD Development Plan
